Catch the Dream...Build the Future!

Our School

Camilla School nurtures a positive, enriching experience for all students. We are committed to high-quality instruction and place special focus on improving literacy skills. We work hard to uphold our reputation for professional staff, friendly and cooperative students and a supportive parent community.

Our school appreciates the value of the rural and multi-cultural heritage within our community. We meet the needs of individual students through a wide variety of academics, career and technology studies, fine arts and extracurricular programs. Students are also taught values of character education and global citizenship.
